- how farts brew and see a burp in action
- what a poo is made from and how one is formed
- make loads of snot and watch it flow uphill
- why scabs and boils form and make your own
- how you can make a life-size bouncy eyeball and wobbly brain
- how you can make edible skin

## DR TOXIC'S SLIME LAB

Make barrels full of icky, sticky, gungey, oozing slime and crazy jelly-filled mutant worms!

Mix slime colours, pump into the mixing tube, add slime powder and spin to mix. Then pour your goo into the barrels!

Make slimy jelly-filled toxic worms to add to your gunk.
