WELCOME TO THE 2015 CATALOGUE

This year sees our third year of collaboration with Discovery Animal Planet.

In order to build on our growing reputation as a manufacturer of high quality figurines this year will see a number of new products as well as numerous updates and modifications to existing products in order to raise our quality to an even higher level.

Specifically for 2015 we would like to highlight our new fantasy Dragons and Princess figures, a new range of Dinosaurs and some upgrades to the current range including new models of the African Elephant and calf along with a new Texas Longhorn Bull.

Our Horse and Farm series also benefit from new figures with additional Cattle and Horses added to the line-up for 2015.

We are also pleased to introduce a completely new range for 2015: MojoMinis.

A range of 20 mini figurines measuring approx. 6cm in length. Aimed specifically at the pocket money sector, what these figures lack in size is certainly made up for in the quality. The first series comprises 10 Dinosaur and 10 Wildlife models. Collectible and pocket sized, these figures represent a change in the approach to Mini figures proving that you don't have to sacrifice quality to price.

Finally a big thank you to everyone who has purchased our products, we want you to know it's very much appreciated and never taken for granted. Thank You!

DID YOU KNOW?

MEASURING SOME 12M LONG AND STANDING 4M HIGH AT THE HIPS, T-REX WAS ONE OF THE LARGEST KNOWN LAND PREDATORS.

WITH RUNNING SPEEDS OF UP TO 40KPH (25MPH) AND TEETH SOME 30CM LONG, THIS WOULD HAVE MADE T-REX A FORMIDABLE HUNTER.

Innovation and reliability

We believe establishing long-term relationships is key to the future of our business. To build the very best reputation for innovation and reliability we focus on the quality of our products and services, and the excellent customer care we work hard to provide. We take heed of and value all feedback.

Craft and expertise

We craft each animal in the Mojo range over a period of many months, from the initial design and sculpting through to the final processes of colouration and painting. We expertly research every detail to recreate as close to nature as possible the animals and creatures children know and love.

Safety and standards

The safety of children is of paramount importance to us in developing our products. Every animal in the Mojo range is rigorously tested and must fulfil all current worldwide safety standards before being introduced to the market.

European standards

EN71 Part 1, 2, & 3, EN71 Part 9, DIN53160 (German standard), Cadmium & Non-Phthalate.

US Standards

ASTM F963-11, CPSIA, Lead in surface coatings, Lead in substrate, Non-Phthalate, US Public Law 110-314, Assembly Bill of California AB1108 & Cal Prop 65.
