Mini Home invites you to create, build and play.

A Design Toy, Building Set and 3D Puzzle Game in one!

With Mini Home you can create your own toy home. The playsets work as both a building set and a puzzle game.

There are two different products:

Mini Home and **Big Mini Home**.

Each set is packed in a box that is a playable puzzle in itself. When you are done playing, fit the pieces back in the box the right way!

The Mini Home product and its furniture are designed by the legendary Finnish designer, **Eero Aarnio**, whose work also includes the Ball and Bubble chairs.

Mini Home is designed and developed in Finland.

Design Eero Aarnio

Aarnio studied at the Institute of Industrial Arts in Helsinki, and started his own office in 1962. The following year, he introduced his Ball Chair, a hollow sphere on a stand, open on one side to allow a person to sit within. The similar Bubble Chair was clear and suspended from above.

Other innovative designs included his Pastil Chair (a beanbag-like molded armchair), and Tomato Chair (a seat molded between three supporting spheres). His Screw Table, as the name suggests, had the appearance of a flat head screw driven into the ground. He was awarded the American Industrial Design award in 1968.

Aarnio's designs were an important aspect of 1960s popular culture, and could often be seen as part of sets in period science-fiction films. Because his designs used very simple geometric forms, they were ideal for such productions.

Eero Aarnio continues to create new designs, including toys and furniture for children.
