## THE BEST COMFORT AND SOFTNESS for your baby and toddler

Lumo Stars Baby Line is created in Finland, the leading country in baby health care, early childhood education and Nordic design. The famous maternity package was also created in Finland over 80 years ago and every mother gets the big box free of charge when having a baby. The content of the box is carefully chosen by an experienced jury. A Lumo Stars baby product has been selected to the Finnish maternity package.

Blankets and soft toys are usually the baby's most important toys that accompany them everywhere.
