Let's Learn
GAMES & ACTIVITIES

LEARNING CAN BE FUN & GAMES!

The colourful Let's Learn games offer children activities that match their age and level of development. Playing builds positive emotional experiences and joy, which encourage children to keep learning. Childhood forms the basis for life-long learning and a child's idea of themselves as a learner.

The Let's Learn games and activities have been developed together with Finnish teachers. It's easy to choose the right game or activity for your child's age and interests. Scan the QR code on the back of the games to watch a short tutorial for each game.

The games and activities are manufactured from recycled cardboard in our own factory in Finland. It's important to us that our products are safe, durable, ecological and ethical. That's why we are proud to say that we have been granted the FSC certificate, which ensures that all of our cardboard is from sustainably managed forests.

Joy comes from discovery and playing together!

Take a peek into the world of Let's Learn!

Let's Learn SCHOOL DAY

Step into the classroom with this co-operative game that gives children a sneak peek into different school subjects – mixed with plenty of play! To win, collect a token for each school subject before the clock strikes three. Every now and again during the game, you may draw a recess card with fun little activities, and when the School Day is over, the game set can also be used for free play!
