Save The Sea

The sea — unexplored, ethereal — a place of calm, brimming with billions of species and mysteries... is the center of our life support system and an essential part of our lives.

However, in the last few decades, there has been a dramatic downturn in its health.

Be part of the motion! Revive the beautiful waves of the sea and save it by adopting your very own Save the Sea Plush Toy!

More than 100 Million sea animals are dying every year because of plastic and litter—only a fraction of the actual damage caused to the sea by the land and its inhabitants.

And that's not all: Over 500 areas around the world have been tagged as a "dead zone".

For the sake of the future of Planet Earth, we need to make sure these numbers don't grow higher: It is time for us to spring into action.

Our Save the Sea Series introduces a simple, fun and eco-friendly way to get started!

LEAVE A FOOTPRINT that lasts for generations

The Sea brings life to the entire planet: with the Save the Sea Plush series, you can get an adoption certificate and create a beautiful bond between the youth and the sea. With us, you can empower the future generation to have an impact on what their own future will look like: let this certificate be a constant reminder to your children of their effort for years to come!

RECYCLE, REUSE, and REKINDLE

Want to teach your children about the importance of recycling? Broaden their mindset with our Save the Sea Plush Series. Each plush in this series is made not only from recycled products, but it is also 100% recyclable and completely safe for your child, allowing them to see firsthand how recycling can bring new, wonderful, and better things to life.

Save the Sea REDUCE

REDUCE

You are not alone with your choices! Each of us can make an impact and make more responsible choices. Today, many of us want to invest in sustainable development and choose more ecological products.

Save the Sea is a new age plush series with today's values!

Let's save the sea, plush by plush!

REUSE

This new series is made of plastic bottles collected from the sea. Both its contents and fabric are 100% recycled material. It takes about 4 -7 bottles to make one piece of plush!

Save the Sea, a modern set of responsible plush toys with cute characters and an important message.

RECYCLE

The adorable sea animals are designed to be high quality, sustainable and suitable for the hands of a small child. The toys are 100% recyclable

And best of all, each character comes with an adoption certificate. In this way, the characters become even closer to the new owner!
